***Ex Parte Quayle***

This application is in condition for allowance except for the following formal matters:

The sequence listing submitted by applicants is considered improper. Applicants' listing submitted September 28, 1998 contains a reference in the "General Information" section that there are a total of 8 sequences disclosed in the listing. However, there are 22 sequences actually listed. Furthermore, the communication entered on February 2, 2000 states that the CRF supplied with the priority document US Application Serial Number 07/965,411 can be used for the instant application. A printout of this disc discloses a total of 15 sequences. Applicants are advised that the number of sequences must be clearly listed in the "General Information" header of the paper copy, which must match the printout from the CRF submission. Correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
